WATER-LINE
INSTALLATIONS

Tail-Race
Connection

Beginning in the fall of 2012, the Town of Payson awarded bids for In-Town Waterline construction. This portion of the project consists of 8 different lines and the Tail-Race Connection. To date three lines have been completed consisting of 5,142 feet of 18" ductile iron pipe, 1,582 feet of 12" PVC pipe and 3,634 feet of 8" PVC pipe. A 4th line is currently under construction, which connects our existing system to the community of Mesa Del Caballo, as well as, the site of the future Water Treatment Plant. The Tail Race Connection at the current SRP Plant is also completed.

Line "E" - 12" PVC Pipe

Line "H" - to Mesa Del Caballo and the
future site of the Water Treatment
Plant
